

DRAKE

As snake continues to dominate as a statement in the world of fashion, we were inspired to bring it into our collection. The Drake is made from water snake, typically used for leather accessories. The skin creates stripes in greys and whites, with each panel alternating in direction, allowing the Drake to have a graphic, as well as textural, appeal.

30"W x 40"H

Finishes: Sea Snake

(Natural variation to be expected.)
